

**Salvia
Caradonna**

Use: Perennial
Exposure: Sun to part sun
Size: 24”h x 18”w
Flowers: blue violet
Bloom Time: late spring-summer
Foliage Color: green
Soil: ordinary well-drained
Pests/Problems: Suseptability to powdery mildew, rust, leaf spot, spider mites, white fly

Blue flowers are on dark purple stems. This plant attracts butterflies and bees but is deer resistant. Remove spent flower spikes to encourage repeat bloom.
